

Ultrasound principles and practice		
8/23/2018		
09:30-10:30	Welcome & registration	
10:30 - 10:40	Welcome Professor Tica Vlad	Professor Tica Vlad
10:40 - 12:00	Hysteroscopy	
	Basic notions and clinical case presentation	
12:00 - 12:30	Coffee	
12:30 - 14:30	Laparoscopy	Professor Tica Vlad
	Basic notions and clinical case presentation	
14:30 - 15:30	Lunch	
15:30 - 18:30	Technical opportunities in gynecological ultrasonography	
8/24/2018		
9:00-9:30	Pre-course questions (including 3 questions per lecture)	Doinita Gache, MD
9:30-10:30	The fetal heart	Professor Marginean Claudiu, MD
9:30-10:30	The guidelines in fetal echocardiography in first and 2nd trimester	Professor Marginean Claudiu, MD
10:30-11:00	Coffee	
11:00-13:15	Physics of ultrasound and 1st trimester scanning	
11:00-11:45	Physics of ultrasound & knobology	Titia Cohen-Overbeek. MD, ISUOG speaker
11:45-12:30	Assessing the normal and abnormal pregnancy between 4 & 10 weeks	Trish Chudleigh -Ph D, ISUOG speaker
12:30-13:15	Assessing normal and abnormal findings between 10 & 14 weeks	Titia Cohen-Overbeek. MD, ISUOG speaker
13:15-14:15	Lunch	
14:15-16:15	Prenatal screening & 2-3rd trimester scanning	
14:15-14:45	Fetal biometry – dating, assessing size & estimating fetal weight	Trish Chudleigh -Ph D, ISUOG speaker
14:45-15:15	Distinguishing between normal & abnormal appearances of the fetal anatomy	Titia Cohen-Overbeek. MD, ISUOG speaker
15:15-15:45	Assessing the placenta & amniotic fluid (in singleton & twin pregnancies)	Trish Chudleigh -Ph D, ISUOG speaker
15:45-16:15	Choice of ultrasound equipment and who should perform the scan	Doinita Gache, MD
16:15-16:45	Coffee	
16:45-18:00	Hands-on teaching 4 persons per station, with a minimum of 4 stations	Trish Chudleigh -Ph D, ISUOG speaker
	therefore available for 16 persons	Titia Cohen-Overbeek. MD, ISUOG speaker
		Doinita Gache, MD
		Mihaela Steriu, MD
	Finish	
8/25/2018		
8.30-10.30	Approach to fetal anatomy & neurosonography	
8:30-9:00	The 20+2 planes approach to the routine mid trimester scan	Trish Chudleigh -Ph D, ISUOG speaker
9:00-9:30	Evaluating fetal anatomy from longitudinal sections & spina bifida	Titia Cohen-Overbeek. MD, ISUOG speaker
9:30-10:00	Distinguishing between normal & abnormal appearances of the skull & brain	Doinita Gache, MD
10:00-10:20	Report writing	Titia Cohen-Overbeek. MD, ISUOG speaker
10:20-10:50	Post course questions	Doinita Gache, MD
10:50-11:20	Coffee	
11:20-13:00	Hands-on teaching 4 persons per station, with a minimum of 4 stations	Trish Chudleigh -Ph D, ISUOG speaker
	therefore available for another 16 persons	Titia Cohen-Overbeek. MD, ISUOG speaker
		Doinita Gache, MD
	Finish
